

Pattyn Packing Lines

Experts in Bag Inserting Technology

Flo-Mech

Pattyn
PACKING LINES

Flo-Mech are pleased to announce the official UK partnership with Pattyn Packing Lines. Founded in 1952, the Belgian based family company is an international leader in case lining solutions.

Taking advantage of more than 30 years of experience Pattyn Packing Lines guarantees the very best handling, filling and packing of almost any bulk product into poly bag lined boxes, trays or other containers. According to the customers needs Pattyn Packing Lines integrates stand alone machines or complete automated lines from case erecting, bagmaking and inserting, filling, to bag and case closing.

Find out more about the brand new and super compact bagmaker inserter ZIM-11

- Tired of **inserting bags** by hand?
- Even at **low speed**?
- Do you want a **small but intelligent** solution?

Experience the brand new ZIM-11 bagmaker inserter live...

... during the ZIM Road Show 2011

Flo-Mech Sales Manager, Steve Lovell will be taking part in the ZIM Road Show from

3rd – 13th October

We would also like to visit you to demonstrate the ZIM-11, all we require is a 400V 3 phase power supply.

If you would like more information, or to book an appointment on the ZIM Road Show, please contact Steve Lovell on +44 (0) 7710 156466 or email stevell@flo-mech.com
